ENROLL IN YOUR BENEFITS... ONE STEP AT A TIME

You are not required to enroll – however, we encourage you to review your options and choose the benefits and coverage levels that make the most sense for you and your family. If you want to review your options or make changes to your benefits, here are the steps to take. *You only need to take action between November 1 - 15 if you want to (1) contribute to the Health Savings Account, Limited Healthcare Spending Account or Dependent Care Spending Account and/or (2) change any current benefit elections; otherwise, your current benefit elections will continue next year.*

STEP 1: GETTING STARTED

When you are ready to enroll in your 2019 benefits, you can log in from anywhere!

- If you are enrolling in your benefits from inside the MRO network, visit the Marathon Oil Benefits Enrollment Portal, which can be found on theWAVE (click on the “I Need To” link and select “Enroll/Change my Benefit Elections” under the Employee Services section).
- If you are enrolling in your benefits from outside the MRO network, visit marathonoil.bswift.com. Your Username is your 8-digit Employee ID (including the leading zeros) and your Password is the last four digits of your Social Security Number.

You will be able to change your password after your initial login. If you have problems logging in, contact the Marathon Oil Benefits Service Center at 1-855-652-3067 or AskHR at AskHR@marathonoil.com.

STEP 2: ENROLL

Click on the blue “Start Your Enrollment” button at the top of the page. The system will walk you through the enrollment process. You will be able to make changes, enroll for new benefits (if needed) and view your costs for coverage. If you enroll a new dependent, upload documentation (birth certificate, marriage license, etc.) to verify your dependent within 30 days after the close of Benefits Open Enrollment. If you do not verify your new dependent, he or she will *not be covered on your plans in 2019*. Make sure to review and save your confirmation statement when you are finished enrolling.

SPOTLIGHT ON THE HEALTH AND VISION ASSISTANCE PLANS

The health benefits Marathon Oil provides allows you to cover yourself and your eligible dependents. There are two Preferred Provider Organization (PPO) Health Plan options from which to choose – the Health Investment Plan (HIP) Value plan option and the Health Investment Plan (HIP) Plus plan option. Both options give you access to in- and out-of-network doctors and hospitals and offer preventive care (free to you when you use an in-network provider), specialty care and emergency services. In addition, prescription drug costs count toward your deductible and out-of-pocket maximum.

The differences between the **HIP Value** and the **HIP Plus** plan options are:

- Premiums (how much you pay for coverage out of your paycheck),
- Deductible (how much you pay before Marathon Oil shares costs with you),
- Coinsurance (how much you pay after meeting the deductible), and
- Out-of-pocket maximum (the most you will pay for services during the year).

As you look at the main differences between the plan options, think about your preferences. Look at the big picture. Because you pay the monthly premium whether you receive care or not, consider that cost – along with your out-of-pocket costs – when deciding which plan option is best for you. (Example: If you prefer to have a lower, steady monthly cost for coverage with the potential to pay more out of your pocket if you need care, you may want to consider the HIP Plus Plan option. If you would rather limit your costs when you need care, and don't mind paying a higher, steady monthly payment, you may want to consider the HIP Value Plan option.) If you are considering switching Plan options, we have a tool to help you decide. Check out "Ask Emma" on the Marathon Oil Benefits Enrollment Portal to see your potential total costs based on who you plan to cover and your anticipated health care use.*

Health Savings Account

Did you know that if you enroll in the Marathon Oil Health Plan, you have access to a Health Savings Account (HSA) that allows you to set aside money that can be used to pay for qualified medical expenses (like your deductible, coinsurance, dental or vision expenses and much more). The money will roll over from year to year, and can be invested, so you can use it like a savings account for future medical expenses. In 2019, you can contribute even more to your HSA – up to \$3,500 for individuals and \$7,000 for families, plus an additional \$1,000 in catch-up contributions for those aged 55 or older. This maximum includes both employee and employer contributions.

To top it off, Marathon Oil contributes to your HSA each year – check the Health Plan Snapshot chart on the next page to see just how much. And, get saving today! If you have questions about your HSA contact Fidelity at 1-800-544-3716 or log on to netbenefits.com/marathonoil.

*We hope the information and tools are helpful; you may also want to consult your own personal financial advisor to help make this decision, as Marathon Oil does not provide financial advice.

Video chat with a doctor through Virtual Visits

Virtual Visits is a “telemedicine” service providing day or night access to a doctor by phone or video conference. You and any covered dependent can visit with a U.S. board certified doctor for non-emergency medical issues, such as cold and flu, rash, pink eye, family health questions, etc. The doctor can provide tips for self-care and write a prescription if needed. At just an estimated \$49, it might be worth the price for the convenience. Virtual Visits are only covered through UnitedHealthcare-approved providers. To learn more or to schedule an appointment, click on the Virtual Visits panel at the bottom of the myuhc.com homepage.

YOUR COST FOR COVERAGE

The Health Plan of Marathon Oil Company is self-insured, which means the Plan pays the claims we incur. In self-insured plans, the Plan takes the risk and pays the claims; UnitedHealthcare administers the Plan and processes the claims, but the Plan writes the checks. In 2019, Health and Vision Assistance Plan premiums are increasing slightly, but the Plan is absorbing most of the cost.

Please review your *monthly* costs for coverage in the chart below.

COVERAGE LEVEL	HEALTH		DENTAL	VISION ASSISTANCE PLAN
